

HELIX CURVED STAIRLIFT

AS UNIQUE AS YOU AND YOUR HOME

ONE OF A KIND

A Helix Curved Stairlift is one of a kind. Harmar designs are crafted to fit your needs, staircase, and decor.

The Helix is built to last. Every staircase that is fitted with a Helix is measured with a calibrated camera kit for digital accuracy. Constructed with highly durable steel, custom precision-bent rails, and finished by experienced craftsmen, this true curved rail is highly engineered to give you an extraordinarily smooth ride.

Your unique path to independence will allow you to enjoy time with your family and your home on every level giving you independence, freedom, and the quality of life you deserve.

TIGHTER CURVES

The Helix's narrow profile mounts closer to the wall, hugging the stairway with tighter bends and radius curves.

This means more room for you and others, and a comfortable smooth ride.

HELIX CURVED STAIRLIFT MODELS

- CSL590-18:**
- 0°-90° first turn
 - Up to 18' rail
