Follow these
SIMPLE STEPS

- 1 Determine on which side, left or right, the cup holder will be installed. Align the rubber mat inside of the mounting bracket (**Figure 1**).

Figure 1

Note: The rubber mat is only for a 7/8" tubing diameter. A 1" tubing diameter does not need it.

- 3 Attach folding cup holder on the inner plastic gear and ensure the base of the cup holder is parallel to the ground (rotate cup holder to adjust along gear if needed). Secure with washer and small screw (**Figure 3**).

Figure 3

- 2 Add the other mounting bracket to the opposite side. Ensure that the inner plastic gear faces the side the cup holder will be attached to (**Figure 2**). Insert the two larger screws and washers through the sides of the mounting bracket without the gear and tighten with a phillips screw driver.
